

## Request for Statement of Interest and Qualifications: Small or All Cap Public Global Equities Manager

November 2022

### About Inspirit Foundation

Inspirit Foundation is a public foundation based in Toronto, Ontario. We promote inclusion and pluralism through media and arts, support for young changemakers, and impact investing—specifically addressing discrimination based on ethnicity, race, or religion.

At Inspirit we are committed to a 100% impact portfolio, with the goal of leveraging our full asset base for financial returns and positive social and environmental impact. For many, impact investing is a financial tool with social considerations. For us, it is a commitment to a 100% impact portfolio where every investment is activated for positive impact, an imperative to creating the systemic change needed to realize our mission of a more inclusive and pluralist society.

In May 2017, Inspirit updated our [Investment Policy Statement](#) (IPS) to include our commitment to a 100% impact portfolio. Now we are requesting proposals for a small cap or all cap global equities manager that can satisfy the goals outlined in our IPS, in particular goals around risk-adjusted financial performance, movement toward a low carbon portfolio, and portfolio alignment with Inspirit's organizational mission of a more inclusive and pluralist society. As of the beginning of the year, Our asset base was valued around \$42 million. We will likely have a target allocation of up to 20% of our portfolio to a small cap or all cap global equities asset class.

We are looking for proposals for both small and all cap global equities solutions. You may submit proposals for small cap and/or all cap mandates. Multiple submissions are welcome.

### **Alignment with Inspirit's IPS**

We want to understand how the firm and the proposed solution can satisfy the goals we outlined in our IPS. Below is an excerpt from our IPS that highlights how we evaluate the success of our investments:

*Inspirit's investment decisions are guided by three principles. Every investment, in relation to the portfolio as a whole, is evaluated based on these investment principles:*

1. *Risk-adjusted financial performance*
  - *Indicators: net returns vs benchmark, information ratio, up market capture ratio, down market capture ratio*
2. *Movement toward a low carbon portfolio*
  - *Indicators: weighted carbon intensity, weighted average carbon intensity*
3. *Alignment with Inspirit's organizational mission*
  - *Indicators: Environmental/Social/Governance performance, revenue exposure to the outcomes of the United Nation's Sustainable Development Goals*

Describe how your proposed solution will lead to success based on those investment principles. In addition to your provided responses, Inspirit would like to do some analysis of our own. In order to do that, we are requesting a list of holdings as at December 31 each year from 2020 to 2022 (inclusive). The list of holdings should be in Excel format and should include associated security identifiers in the form of ISIN and the weight of securities within the overall proposed solution.

Please also provide monthly performance since inception of the proposed solution in Excel format until September 30, 2022.
